

Week 1 March 30 – April 3

# AT HOME LEARNING

Welcome to Week 1 of "At Home Learning"!

Please find the activities and suggestions for this week in Seesaw (if you haven't accessed your Seesaw account yet, please contact us ASAP and we will help you get it set up). Some of the activities have pages that you can print out if you choose to do so. We have tried to keep the printable pages simple enough that you could write out your own version on paper at home as well. Some of the activities will have online links to look at as well.

We have 5 activities on Seesaw this week and we have planned for your child to complete one activity per day. Please refer to the weekly schedule (see attached) and it is also posted on the website. When you complete an activity, please add a response to the assigned activity on Seesaw, as we would love to see your child's completed work.

Students can still access our regular webpages, but we have a new page on our Lakeview website (<https://lv.lethsd.ab.ca/>) too! Look under Grade Team Websites and find the Yellow Grade 1 Team. Once there, click on Schools, and then Lakeview Elementary. Here you will find our Sunday Suggestions and Printable PDF's (including our weekly worksheets) that you may use to supplement your child's "At Home Learning" experience.
