

Hello families!

Here you will find the learning activities I've prepared for your child each week. All of the necessary videos and documents are linked in the lesson instructions. Sometimes I may send you links via email for things I cannot share on the website due to copyright rules.

I recognize that this is a very stressful time and that every family's current situation is unique. I understand that it may be difficult for your child to complete the weekly programming in its entirety. This is okay! At this time, you need to do what is right for your family and I know you will all do your absolute best!

Alberta Education has recommended that Grade 1 students complete an average of 5 hours of academic programming per week. Furthermore, it has been suggested that the focus of this programming should be in the areas of literacy and numeracy. To make it more fun and engaging for the students, I have decided to do our work around a different theme each week.

Seesaw Class

Thank you to everyone who has already set their child up with Seesaw Class. I love all the notes and pictures I've received so far!

In some of our weekly lessons, I've asked you to submit a picture, video, or note showing your child's learning. This can be done easily through Seesaw. For those specific dates, I will send out an assignment on Seesaw for you to submit to. Below is a short video explaining how to submit work on Seesaw.

Home Reading

While our actual home reading program is on hold, it is still very important for your child to be reading at home each day. Aim for 15 minutes per day to continue to build their skills and their love of reading. Encourage and support your child as they read to and with you.

I am here to support you and your child during this time and cannot say this enough, if you have questions or concerns, related to the assignments or otherwise, I am happy to help! Feel free to email me.

Thank you for all you do! Take care!

Mrs. Ashlee Unrau
