

AT HOME LEARNING

It is Week 9 of "At Home Learning"!

Hello June! June is full of sunshine, days spent outside and of course Father's Day! We are celebrating Father's Day early this year as we want to ensure we can complete all the surprises for Dad in time. You may wish to tuck some of these projects away for safe keeping until Father's Day arrives.

We are also focused on Numbers to 100 again this week. Your child should be gaining confidence with these numbers and also be working on skip counting by 2's, 5's, and 10's.

As we wind down the school year, we are excited about all the fun activities that we have planned! The last day of provided lessons will be Friday, June 19, 2020.
