

Number Line

Getting ready

- Draw a long line on the ground
- Add numbers to the line in order
 - For younger children, you can use the numbers 1-20
 - For older children, you can start at a larger number

How to play

- For counting:
 - Practice saying the numbers as they hop over them
 - Try skip counting by 2s with giant steps!
 - For older children, try writing the number line out counting by 5s or 10s!
- For adding and subtracting:
 - Ex. $6 + 3 =$
 - The child should stand on the 6 and hop forwards or backwards 3 spaces
 - What number did they land on?
